

## Industrial & OSHA Training

### **OSHA 10-HOUR OUTREACH TRAINING FOR GENERAL INDUSTRY**

OSHA Outreach Training is the principal method used to train workers in the essentials of occupational safety and health in General Industry work sites. The OSHA 10-hour course is intended for entry level workers as an orientation and covers safety and health hazards workers may face in industrial work sites and puts emphasis on hazard identification, avoidance, control and prevention. Topics covered include Introduction to OSHA, Electrical Exit Routes, Emergency Action Plans & Fire Prevention, Walking and Working Surfaces, Flammable and Combustible Liquids, Personal Protective Equipment, Machine Guarding, Hazard Communication, Introduction to Bloodborne Pathogens, and Safety and Health Programs.

Whitfield Campus

Tue, Oct 11 8am – 3pm & Thu, Oct 13 8am – 12pm

\$139

### **OSHA 30-HOUR OUTREACH TRAINING FOR GENERAL INDUSTRY**

The OSHA 30-hour Training Course for General Industry is intended for foremen, supervisors, architects, engineers and management in plants, factories, manufacturing and health care facilities. The 30-Hour outreach course covers specific OSHA standards and requirements as they apply to general industry and teaches safety awareness which helps in recognizing and reducing the risks of job site hazards. Intended for workers with some safety responsibility, the 30-hour training covers safety and health hazards workers may face in industrial work sites. The OSHA 30-hour General Industry course puts emphasis on hazard identification, avoidance, control and prevention. Topics covered include the topics covered in the 10-hour course plus OSHA Inspection Procedures, Recordkeeping, Fire Detection & Prevention, Welding, Cutting & Brazing, Safety & Health Programs, Electrical Lockout / Tagout, Personal Protective Equipment, Ergonomics, Hand & Portable Tools, Industrial Hygiene & Bloodborne Pathogens, Permit-Required Confined Spaces, Exit Routes, Emergency Action Plans & Fire Prevention, and Hazard Communication.

Whitfield Campus

Mon – Thu, Oct 24 – 27, 8am – 5pm

\$279

### **ELECTRICAL SAFETY AWARENESS**

This 10 hour is designed for Electrical Safety Qualified personnel. It covers the following topics: OSHA, NFPA-70E, NEC, IEEE, ANSI, Electrical Safety, Environmental Conditions and working with measuring devices. This content will help individuals to identify electrical hazards in the work place and will provide help to implement immediate work habit adjustments.

Whitfield Campus

Tue, Nov 8, 8am – 3pm & Thu, Nov 10 8am – 12pm

\$139

### **ELECTRICAL LICENSE REVIEWFOR THE INDUSTRIAL ENVIRONMENT**

The National Electrical Code has been revised for 2011. This 4-hour refresher course will highlight the changes to the code. Students should bring copies of the 2011 NEC to class. Students wishing to purchase a copy from GNTC should indicate their intentions at the time of registration.

Whitfield Campus

Tue, Oct 4, 11am – 3pm

Thu, Oct 6, 4pm – 7pm

Mon, Nov 7, 4pm – 7pm

Wed, Nov 9, 11am – 4pm

\$69 NEC 2011 Softcover Text (Optional) \$90

### **HEARTSAVER AED AND FIRST AID**

Students taking this course are those assigned to respond to emergencies in the workplace. Students develop the skills to effectively assess and maintain life from the critical minutes immediately following an emergency until the arrival of emergency medical services personnel. This course provides a complete health and safety training solution for first aid, adult CPR, and AED usage. Upon successful completing of the course, students will receive a 2-year Heartsaver First Aid Certification Card issued by the American Heart Association. Books are available during class and may be purchased if desired for \$15.

Whitfield Campus

Fri, Oct 21, 9am – 2pm

Fri, Nov 4, 9am – 2pm

\$59 Textbook (Optional) \$15

### **BLOODBORNE PATHOGENS**

This course is designed for anyone with a reasonable chance of coming in contact with blood borne pathogens. AHA's course uses the PACT acronym (Protect, Act, Clean, Tell) and slogan, "Make a PACT, Know How to Act," to help students learn and easily recall bloodborne pathogens training. Students learn how to:

- Protect themselves from exposure to bloodborne pathogens
- Act when exposed to blood or blood-containing materials in the workplace
- Clean themselves and the area when exposed to blood or blood-containing materials in the workplace
- Tell or report any exposure to blood or blood-containing materials in the workplace

This class is designed to meet all OSHA requirements for blood borne pathogens training.

Whitfield Campus

Fri, Oct 28, 9am – 11am or 12pm – 2pm

Fri, Nov 11 9am – 11am or 12pm – 2pm

\$29

### **CUSTOMIZED OSHA MODULES**

Georgia Northwestern Technical College is now able to provide more flexibility and customizing features for the OSHA training modules. This course on the Walker Campus has been designed to standardize OSHA safety training for industry employees, industrial contractors, and to reduce the duplication of training sessions for contractors working in multiple industrial locations. The course content relates to industrial workplace hazards. The cost for all subjects and certification is \$125. Modules can be customized to meet the needs of the industry or contractor. Upon completion, Georgia Northwestern Technical College will issue a safety certified contractor/employee photo identification badge, will maintain safety course module documentation, and will provide a renewal tracking process for re-certification. Call 706-764-3700 or 706-764-3591 for more information on how Georgia Northwestern Tech can customize a program to meet your needs. OSHA Safety Training can be offered on campus or at your site.

### **ON-LINE INDUSTRIAL TRAINING: MAINTENANCE, PLANT OPERATIONS, CONTROL SYSTEMS, AND SAFETY**

Georgia Northwestern Technical College offers 75 courses in Maintenance for \$785, 110 courses in Plant Operations for \$835, 44 courses in Control Systems for \$680, and 25 courses in Safety for \$140. Each instructional area allows on-line access for 12 months from time of enrollment. Each course, designed to be completed within 1 1/2 to 3 hours, consists of a pretest, course content, and post test. A score of 85 percent on the post test is required for successful completion. For more information call 706-764-3592.
